

Easy Filter

Introduction :

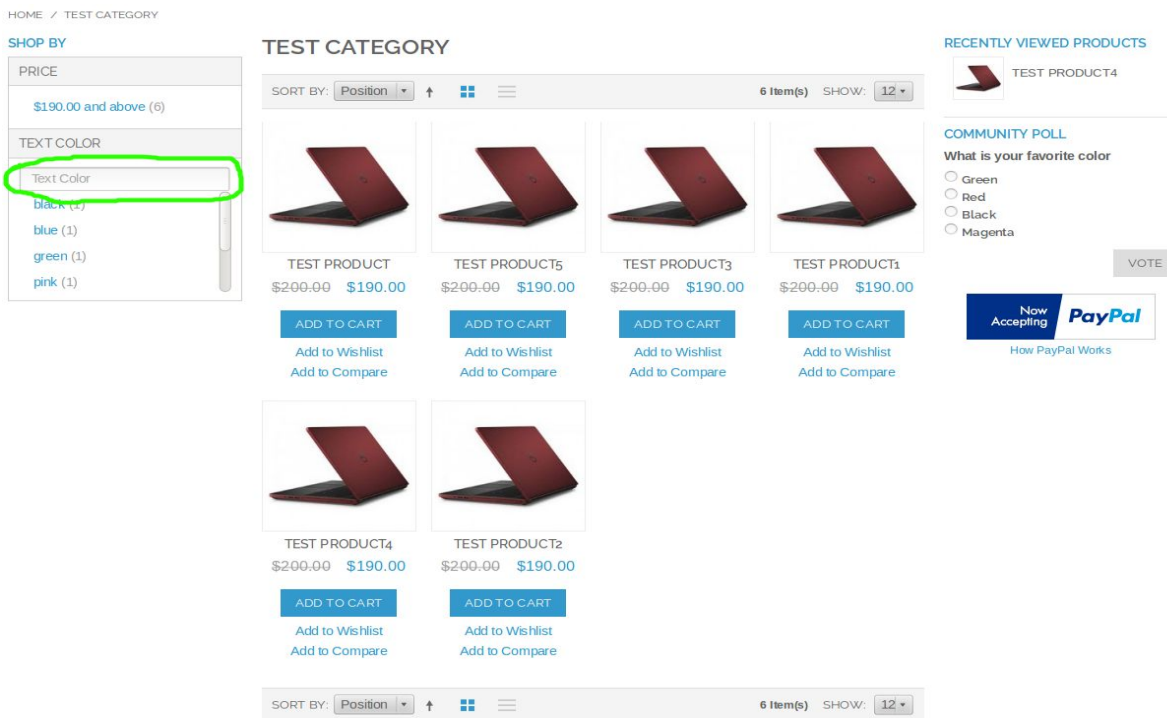

Easy Filter is used to providing search functionality for attributes in layered navigation.

For example :

If you have a number of options in product filters. This plugin will display only five of the filter options and provide a scrollbar to find remaining filters, also there will be a search box where you can search for filter options by typing their names.

Installation :

- After installing the extension log out your admin page and login again.
- Clear all caches.
- Then go to the product listing page (Category page).
- See the filter box in layered navigation.

- Start typing the attribute option names in the easy filter box to search.

- You can search for filters which are not shown initially.
